APR 24 2013

To the Federal Communications Commission:

FCC Mail Room

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting".

The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening.

Relaxing the current policy would not serve public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.

FCC Mail Room

To the Federal Communications Commission:

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting".

The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening.

Relaxing the current policy would not serve public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.
